

The object of the game is to get a higher five card poker hand than the dealer using only the cards dealt to the patron. The game is played with five wild cards—the four deuces and one joker.

### GETTING STARTED

You make equal bets on the Ante and Blind to play the game. You may also wager on the Trips and Two Way Bad Beat Bonus side bets.

You will then get five cards and make a decision:  
Fold or make a Play bet of 2x your Ante.

### WINNING & LOSING

The dealer will then reveal their five cards and announce their hand, if the dealer beats your hand, your Ante, Play and Blinds bets lose. If the dealer ties your hand, your Ante, Play and Blind bets push. If your hand wins, your Ante and Play bets pay 1 to 1 and Blind pays according to the payable (see payout).

### TRIPS BONUS

The Trips bet wins if you have three-of-a-kind or better. Natural hands pay more than ones that use wild cards. Not all hands with a deuce are considered “wild.” If the deuce is not used as a wild card to make a winning Trips hand, it will be considered its natural rank. You may use the deuce as a wild card in the base game and use it as a natural for the Trips bet. This is paid even if the Patron folds. However, it is the player’s responsibility to inform the dealer that he/she has a winning trips wager on the hand that has been folded. See payouts for odds.

### TWO WAY BAD BEAT BONUS

The Two Way Bad Beat Bonus wins if both the Player and the Dealer each have Three of a Kind or better, and they do not tie. Payouts are based on the losing hand. See payouts for odds.
